

JIMDECO

We are a new swedish furniture brand run by the joy of creating twisted furniture with functional and timeless design.

JIMDECO is a new swedish furniture brand run by the joy of creating twisted furniture with functional and timeless design. Our furniture looks just as good in restaurants, offices and hotels as being the fine detail in a home. It is everyday small practical challenges and events that engage our thoughts and ideas. Thoughts and ideas developed into products that are easy to live with.
